

# Mango — Essential FAQ

## **What Mango is**

Mango is a local trust infrastructure that recognizes real exchanges between people, without money.

## **What Mango is NOT**

It is not a currency, not an app, not a project, it cannot be accumulated or measured.

## **How Mango works**

Two people make a real exchange and recognize it by writing one line on a sheet.

## **Where it comes from**

It comes from a real experience of recognized human exchange, even before having a name.
